NFCRWD Staff Updates

Current programs/projects

Cris Skonard: Ditch Boundaries are being reestablished. Pierz Lake has an AIS Project. Koronis Lake had a public hearing, they are asking for an additional tax on lake shore owners to finance the Starry Stone Wart treatment as the present funding will end this year.

NFCRWD Monitoring Update

Levels fluctuate as rain fall varies. There have been more water events this year, this increases phosphates. Water clarity is down both in Koronis and Grove lakes. Data will be more meaningful at the end of the season. Concerns for E. coli contamination were expressed. DNA testing is very costly.

AIS Update:**Lake Association Updates:**

Koronis project is on target to bring petition before the board.

Rice Lake has a new president.

Ann Frederickson reported invasive high breed cat tails in the west end of Grove Lake. John Maile presented information on this in a past meeting, she was given contact information.

NFCRWD Education Event-Winter 2019-2020

Topics: manure management/education. Usual Farmers Fair is in March.

Food and door prizes help the turn out, needs to be localized. Jim Weller has an area that will go from alfalfa to black that could be used for a demo. Gary Berndt needs more calendars know when to spread.
